Summary

I'm Vaibhav Sharma, pursuing my bachelor's degree in Computer Science and Engineering at NIT Kurukshetra. I am always looking for opportunities to improve my skills and gaining real-world experience in the fields of SDE, DSA, and Web Development among many fields.
I'm tremendously excited about working on projects as an Intern/Trainee during my Btech to gain real-world skills and acquire valuable lessons.

As an intern at CodSoft, I am working on developing and deploying web applications using the MERN stack, a set of technologies that I am passionate about and proficient in. I am also learning from experienced mentors and collaborating with other interns on various projects, such as a social media platform and an e-commerce website.

I am pursuing my bachelor's degree in Computer Science and Engineering at NIT Kurukshetra, one of the premier institutes in India. I have completed multiple courses and certifications in data science, a field that fascinates me and challenges me to apply my analytical and programming skills to real-world problems. I have also participated in several online coding competitions and hackathons, where I have demonstrated my creativity and problem- solving abilities.

My goal is to become a full-stack developer who can design, build, and maintain web applications that are user- friendly, responsive, and secure. I am always eager to improve my skills and gain practical experience in the fields of software development, data science, and web development. I am also open to exploring new domains and technologies that can enhance my knowledge and career prospects.

Experience

Student
Technobyte, NIT Kurukshetra
Dec 2022 - Present (9 months)

Intern
CodSoft
Aug 2023 - Present (1 month)

Student
NIT Kurukshetra
Nov 2022 - Present (10 months)

Education

Dyal Singh Public School
High School Diploma, Computer Science, Mar 2020 - Mar 2022
Student

National Institute of Technology, Kurukshetra, Haryana

Licenses & Certifications

What Is Data Science
WGBK9F7CRDLU

Introduction to Programming with MATLAB -
Vanderbilt University

Tools for data science
WFJ72T9HRZ2C

Front End Development Libraries - freeCodeCamp

in React.js Essential Training

- LinkedIn

in Node.js Essential Training

- LinkedIn

in MERN Essential Training -

LinkedIn

in Tailwind CSS 3 Essential Training - LinkedIn

in Level Up: JavaScript - LinkedIn

in Getting Started as a Full-Stack Web Developer - LinkedIn

in Introduction to Web APIs - LinkedIn

Excalibur - Unstop

in Programming Foundations: Algorithms - LinkedIn

Skills

Algorithm Development • Facial Recognition • Encoding
• Logical Approach • Media • Web Analytics • Javascript • React
• Web Applications • Web Services • Web Design • Web Development
• Javascript • React • C++ • Python • C • Java
• Problem Solving
• Web Applications • Web Services • Web Design • WebDevelopment

Projects

- **Device Security System (DSS) :** This project aims to notify the owner about the intruders that have been captured by the device's camera. If any face is recognized to not be in the owner's list, a record is stored of the intruder in a CSV file along with the time ofthe intrusion.
